

Navigation: Use the **left sidebar** to switch screens. The **top bar** shows the clock, connection status (green = connected), a **Refresh** button, and a theme toggle.

● **Process a Transaction** · Dashboard

1. **Select the customer** (search by name or ID).
2. Enter the amount in **Customer Pays** and pick the currency.
3. Pick the **Customer Receives** currency — the amount calculates automatically. Use the **swap** button to flip currencies.
4. (Optional) Choose a **Receiving Destination** to apply its fee.
5. Click **Process Transaction** → you get a receipt number. **Clear** resets the form.

● **Set Rates & Spreads** · Live Rates

- Compare live sources; set **Store Rate** to *Source* or *Custom*.
- Set the **Spread** (%/Fixed, symmetric or asymmetric) and **Rounding**, then **Save**.
- **Auto Sync** refreshes every 30s; **Refresh** updates once.

● **Customers**

- **Add New Customer** — name required; phone, email, 1–5 star level.
- Bulk import: **Download Template** → fill it in → **Upload by Excel**.
- Click any row to **view, edit, or delete**.

● **Level Points** · loyalty fees

- Per pair, choose % or **Fixed**, then set a fee per star level.
- Higher stars = lower fees; 0 or blank = no extra fee. Click **Save**.
- Fees apply automatically at checkout.

● **Destinations** · payout locations

- Enter a **Name** and **Commission** (% or Fixed) → **Add**.
- Edit (pencil) or remove (trash). They appear as options on the Dashboard.

● **Transactions**

- Search by receipt ID, customer, or pair; filter by **date** and **status**.
- **Export CSV** to download a report.

● **Settings**

- Manage **currencies**, toggle **live rate fetching**, and enable optional features (**Settlement Terms**, **Margins**).

Daily checklist: ☒ Green connection → ☒ Check Live Rates → ☒ Serve customers on the Dashboard → ☒ Review Transactions.
